## EXPERIENCE

**Cybersecurity Intern** · Information & Decision Support Center (IDSC) — Council of Ministers of Egypt  
August 2025

- Completed practical training in the General Administration of Information Security, covering penetration testing, risk management, incident response, encryption, and compliance frameworks.
- Applied secure network design principles to real institutional systems and worked alongside the Head of Cybersecurity to understand government-level security management.

**QC Software Testing Intern** · Link Development  
July 2025

- Designed and executed manual test cases across 2 real-world software projects covering functional, usability, security, and regression scenarios; identified and tracked all defects through full fix-and-retest cycles.
- Applied usability and security checklists during product evaluations, explored performance testing techniques, and managed defect lifecycle within structured Azure DevOps QC workflows across both projects.

**Smart Cities & Software Engineering Intern** · Talaat Moustafa Group (TMG) September 2024

- Applied STLC and SDLC methodologies to smart-city software modules; conducted data analysis on city-wide alarms and lighting systems, producing Excel-based visualisations for the engineering team.
- Built networking skills with Cisco Packet Tracer, explored Flutter mobile development, and applied business analysis frameworks to operational workflows.

**Technology & Digital Banking Summer Intern** · CIB Egypt  
July 2024

- Gained exposure to digital transformation, data integrity, risk management, and cybersecurity fundamentals in a regulated banking environment; completed two bank-issued certifications.

**Summer Internship Programme** · Bright Network  
June 2024

- Participated in a structured virtual programme developing professional and technical skills across technology career pathways.

**Artificial Intelligence Training** · Zewail City of Science, Technology & Innovation August 2023

- Completed an intensive AI programme covering ML, deep learning, and NLP using Python, NumPy, and TensorFlow; delivered projects in sentiment analysis, image classification, and recommendation systems.

## SKILLS & TECHNOLOGIES

**Testing:** Manual Testing · Automation Testing · Test Case Design & Execution · Bug Reporting & Tracking · Regression Testing · Usability Testing · Security Checklists · UAT · Exploratory Testing

**Automation:** Cypress · Selenium

**API & Security:** Postman (API Testing) · OWASP ZAP (Security Testing) · Performance Testing Fundamentals

**Cybersecurity:** Penetration Testing · Risk Management · Incident Response · Encryption · Secure Network Design · Compliance Frameworks

**Languages:** Java · Python · JavaScript · SQL · C/C++ · PHP · Kotlin · R · Dart

**Web & Mobile:** React.js · HTML5 · CSS3 · Flutter · Node.js · Express.js · REST APIs · J2EE

**Databases:** MySQL · Oracle SQL · PL/SQL · MongoDB

**Tools & PM:** Git · GitHub · Azure DevOps · JIRA · Trello · Notion · Figma · Cisco Packet Tracer

**AI & Data:** Prompt Engineering · Scikit-Learn · XGBoost · NLP · NumPy · TensorFlow

## PROJECTS

**Servio — AI-Powered Home Services Platform (Graduation Project)** | React.js · HTML5 · CSS3 · JavaScript · Flutter · Node.js · MongoDB · Python · Scikit-Learn · XGBoost · NLP · JWT

- Built a full-stack web (React.js, HTML5, CSS3, JavaScript) and mobile (Flutter/Dart) marketplace connecting homeowners with verified service providers, covering the complete SDLC from requirements through deployment.

- Developed an AI technician recommendation engine using KNN and NLP to match users by service type, location, budget, and provider performance; built an XGBoost-based renovation cost estimator calculating material quantities and labour costs from room dimensions.
- Secured the platform with JWT authentication, role-based access control, and GDPR-aware privacy design; integrated payment gateway, geolocation, and real-time service tracking APIs.
- Managed delivery using Trello for Agile sprint planning and Git/GitHub for version control across a collaborative team.

#### **Book Store Web Application** | HTML · CSS · JavaScript · PHP · Java J2EE

- Built a full-stack e-commerce platform with user authentication and dynamic catalogue; migrated backend from PHP to Java J2EE and re-executed all functional test cases post-migration to confirm zero regression.
- Performed end-to-end testing of purchase and search workflows, identifying and resolving functional defects before final release.

#### **Supermarket Management System** | R · Shiny · ggplot2 · dplyr · QR Code Libraries

- Developed a real-time management tool with receipt printing, QR-code inventory scanning, and statistical sales dashboards — nominated for Best Project by faculty.

#### **Arcade Center Database System** | Oracle SQL · PL/SQL

- Designed a relational schema for games, customers, transactions, and staff; implemented and tested PL/SQL stored procedures against insert/update/delete scenarios to confirm data accuracy and integrity.

### **EDUCATION**

---

#### **B.Sc. Computer Science — Major in Software Engineering**

2022 – 2026

Arab Academy for Science, Technology & Maritime Transport (AAST) · Cairo

Relevant coursework: Software Verification & Validation · Software Engineering · Data Structures & Algorithms · Database Systems · Cybersecurity · AI

### **CERTIFICATIONS**

---

- Software Testing Diploma — AMIT Learning (2024)
- Prompt Engineering — Dubai Future Foundation, One Million Prompters Initiative (2026)
- Data Literacy Essentials + Data Literacy in Practice — SAS (2024)
- Algorithms — IBM SkillsBuild (2024)
- Digital Transformation & Data Literacy · Financial Literacy & Entrepreneurial Skills — CIB Egypt (2024)

### **EXTRACURRICULAR & COMPETITIONS**

---

- ECPC Participant — Egyptian Collegiate Programming Contest (2025): competed in a team solving algorithmic problems under time pressure.
- Vice Head of Digital Marketing — AAST Student Council: led digital campaigns and online event promotion for the student body.
- Public Relations Member — Enactus AAST: organised activities and events, and secured external sponsorships for community-impact projects.
